SKILLS

Functional Testing

UAT Testing, Regression Testing, System Testing

Test Management Tools:
HP Quality Center, JIRA,
Microsoft TFS

In-depth knowledge of
Agile Methodologies,
Software test life cycle,
risk management and
software test planning

Automation Testing:
Selenium
WebDriver(Java), Page
Object Model, TestNG,
Apache POI, Maven,
GitLab, Jenkins

Oracle SQL developer,
Microsoft SQL Server
Management Studio

API Testing: SoapUI,
Postman, Exposure to
RestAssured

Linux Commands, Shell
Scripting, Putty, Vmware
VSphere Client

LANGUAGES

English, Bengali, Hindi
Full Professional Proficiency

INTERESTS

Have Exposure to
Docker & Basic
knowledge about
RPA(tool: Ui Path)

Python,AWS, DevOps,
Kubernetes

SUSHOBHAN DAS

Test Engineer Analyst

Professional Software Tester with 4 years of experience in both Functional and Automation testing.

WORK EXPERIENCE

Associate Software Engineer

Accenture

05/2017 - 07/2019

Test Engineer Analyst

Accenture

08/2019 - Present

PROJECTS

TELUS QA(Telus Corporation is a Canadian national telecommunications company that provides a wide range of telecommunications products and services including internet access, voice, entertainment, healthcare, video, and IPTV television)
(08/2017 - 10/2019)

- 2 years of domain experience and knowledge in working with OSS/BSS systems with specialization in Order management, Service provisioning and service support and assurance applications on Telecom Domain.
- Understand and analyze Business, Functional, Technical and UI (User Interface) requirements of the project/release. Creation of Test Strategy and Test Approach document for releases and Test Case creation and execution. Work with Application, Technical Architects, Business Analysts and other project stakeholders to estimate, plan and execute QA projects.
- Identifying & managing defects. Defect reporting, triage and overall defect life cycle management.
- Worked with Business team directly for BAU (Business As Usual) test planning & execution in weekly production releases. Worked as UAT tester for migration between communication technologies (Coper to Optical Fiber).

Dell Secure Remote Services (11/2019 - Present)

- Automation Testing: Automating Web Applications using Selenium(Java). Creation/maintenance of test automation scripts, test reports. Working knowledge of in-house automation framework of Client(Dell). Building automation framework from scratch using TestNG framework and Page Object Model pattern. Exposure to Robot Framework.
- Webservice Testing: Testing various components of web application with the help API request and response using Soap UI. Testing of End to End application components with REST API using POSTMAN collections before the whole application is made ready for complete testing. Validating API responses in Swagger interface.
- Exposure to Linux(Deploy and Provision various Linux OS builds in Docker, Cloud-VMs). Shell scripting. Exposure to Putty and Linux commands. Hands on Experience on Deploying OVF/Hyper V builds in Network IPs.
- Database testing: (Oracle SQL Developer/MS SQL Server Management Studio) End to End database testing of data flowing from various source applications to different destination applications based on different design logics. Monitoring extract jobs and validate the data in Extract and final tables of destination applications. Volume testing of various database.
- Coordinating with different SMEs to get understanding of the workflow of applications. Working with different teams in parallel for multiple requirements on need basis.

EDUCATION

Study Program

KIIT University

06/2013 - 04/2017

B.tech

- Electrical Engineering

CGPA: 8.34

ACHIEVEMENTS

APEX Award winner for CMT FY18 Q3 APEX Award in Accenture (12/2018)

Community Champ award from South NA(04/2021)
